

AvaSure Devices

The intelligent virtual care platform

Over 1,100 hospitals use AvaSure to engage with patients, optimize staffing, and seamlessly blend remote and in-person treatment at scale. Drive measurable outcomes and empower clinicians with AI-powered continuous monitoring, episodic care, and reliable hardware from our line of Guardian™ devices.

Robust, flexible devices for virtual care

AvaSure devices are specially-designed, modular configurations of the best cameras and audio systems to fit the unique needs of your facilities. Integrate AvaSure hardware, smart medical devices, and other partner technologies on a platform that makes seamless virtual care a reality.

A dedicated clinical onboarding manager helps you shape your hardware implementation strategy.

AvaSure's technical onboarding team provisions, tests, and ensures the performance of devices.

Ongoing support and device monitoring avoids downtime and maximizes adoption.
