

The Intelligent Virtual Care Platform

Over 1,100 hospitals use AvaSure to engage with patients, optimize staffing, and seamlessly blend remote and in-person treatment at scale. Drive measurable outcomes and empower clinicians with AI-powered continuous monitoring and episodic care capabilities that integrate seamlessly into your care workflows.

Future-proof solutions for seamless virtual care

AvaSure offers modern virtual care solutions with flexible deployment and hardware configurations to fit your unique requirements. Choose from flexible device options, integrate with other healthcare vendors, and grant partners secure access to your data with the guidance of our expert clinical team.

Continuous monitoring

A powerful, AI-augmented application for patient monitoring and observation that reduces the need for 1:1 sitters and prevents adverse events at scale.

Episodic care

High-quality, two-way video for virtual visits with care providers. Ease the burden on clinicians and support staff by enabling remote workflows for admission, discharge, consults, rounding, and more.

AI at AvaSure

AvaSure's intelligence layer applies computer vision to monitor patients remotely and incorporate AI into decision-making. Identify high-risk events and equipment issues, automatically alert on-site staff, and run EHR data through predictive models to improve patient outcomes.

Enterprise-grade, two-way devices

Equip every room with flexible devices accessible via API. AvaSure's high-fidelity cameras can share access to video feeds with partners or stream data to your own smart medical devices.

Clinical support meets proven technical expertise

As an AvaSure customer, you get access to a dedicated clinical success manager, onboarding team, and ongoing 24/7 US-based technical support to ensure you meet your virtual care goals. With AvaSure, nursing and IT leaders quickly realize ROI while continuously shaping a vision for virtual care together.

Loved by nurses and clinicians across the US

AvaSure helps your care teams ease staffing and retention challenges, combat rising labor costs, and do their best, stress-free work from where they happen to be.
